Dear Sir,

In regard to your Master's thesis  
on radio and television's role in  
the flood disaster:

Please, let me express my  
appreciation to K.O. T.A. Radio Station.

We lived in Central City, South  
Dakota at the time of the flood.

Three of our children lived in  
Rapid City, and with no telephone  
communication to depend on, I  
listened to K.O. T.A. radio, all day, for  
Continual messages and news.

About 4:30 p.m. Saturday June 10<sup>th</sup>, a message called into K. O. J. a. Radio, by our oldest son, came over the air, relating, that he and his two sisters and their families were all safe in North Rapid City. It was very thankfully received.

He lives in the country about 12 miles from Lead, and would like you to know K. O. J. a.'s Radio reception, here, is as clear as it was, when we lived in Rapid City.

Please, extend my appreciation, to all the staff members at K. O. J. a., for the message, about our Children's Safety during the flood.

Thank you.

Sincerely,

Mrs. Eva M. Murphy
